

ALX Oncology Announces Results from Phase 1b/2 Trial of Evorpaccept in Combination with Zanidatamab will be Presented at the San Antonio Breast Cancer Symposium (SABCS) 2024

November 1, 2024

Poster presentation will highlight new data from clinical trial evaluating evorpaccept, a highly differentiated investigational CD47 blocker, in combination with zanidatamab, an investigational dual HER2-targeted bispecific antibody, in patients with advanced breast cancers

SOUTH SAN FRANCISCO, Calif., Nov. 01, 2024 (GLOBE NEWSWIRE) -- ALX Oncology Holdings Inc., ("ALX Oncology" or "the Company") (Nasdaq: ALXO), a clinical-stage biotechnology company advancing therapies that boost the immune system to treat cancer in new ways and extend patients' lives, today announced that results from a Phase 1b/2 combination trial evaluating ALX Oncology's evorpaccept in combination with Jazz Pharmaceuticals' zanidatamab in HER2-positive and HER2-low metastatic breast cancer have been accepted for a poster spotlight presentation at the San Antonio Breast Cancer Symposium (SABCS), which will be held in San Antonio, Texas, from December 10-13, 2024.

The Phase 1b/2 clinical trial is a two-part, open-label, multicenter study ([NCT05027139](https://clinicaltrials.gov/ct2/show/study/NCT05027139)) that evaluated the potential of evorpaccept in combination with zanidatamab as a novel treatment for patients with HER2-expressing breast cancer and other cancers. Data from this study will be summarized in the following poster spotlight presentation:

Title: [Zanidatamab in combination with evorpaccept in HER2-positive and HER2-low metastatic breast cancer: Results from a phase 1b/2 study](#)

Abstract Number: SESS-2007

Presenter: Alberto J. Montero, M.D., MBA, Clinical Director, Breast Cancer Medical Oncology Program, Diana Hyland Endowed Chair for Breast Cancer, and Professor of Medicine at University Hospitals Seidman Cancer Center, Case Western Reserve University

Presentation Date and Time: Thursday, Dec. 12, 7:00 a.m. – 8:30 a.m. CST

Presentation ID: PS8-09

Location: Henry B. Gonzalez Convention Center, San Antonio, Texas

About ALX Oncology

ALX Oncology (Nasdaq: ALXO) is a clinical-stage biotechnology company advancing therapies that boost the immune system to treat cancer in new ways and extend patients' lives. ALX Oncology's lead therapeutic candidate, evorpaccept, has demonstrated potential to serve as a cornerstone therapy upon which the future of immuno-oncology can be built. Evorpaccept is currently being evaluated across multiple ongoing clinical trials in a wide range of cancer indications.
